

P350 – Genflex Plastic Primer Transparent

Description:

P350 is an excellent single component plastic primer for adhesion to factory raw plastic bumpers. It is a clear liquid slightly pigmented with a metallic pigment for easier spraying. It creates good adhesion for primer, sealer, or basecoat to these plastic parts.

Suitable Substrates: Adheres to all plastic car parts available today, namely: Polypropylene, polyurethane and polyolefin plastics. It is not suitable for PE (polyethylene) parts.

Surface Preparation (untreated plastic):

Temper 60 min.@ 60°C.

Abrade surface with an ultra fine pad soaked in GenClean silicone remover

Wipe with Genclean silicone remover.

Air dry overnight or 20 min. .@ 60°C.

Application:

Ready to spray
