## Safety Data Sheet

acc. to OSHA HCS

Printing date 06/22/2023

Reviewed on 06/22/2023

### 1 Identification

- · Product identifier
- · Trade name: <u>S23 REDUCER NORMAL</u>
- · Article number: S23
- · Application of the substance / the mixture refer to the relevant Technical Data Sheet
- · Details of the supplier of the safety data sheet
- Manufacturer/Supplier: General Paint Co. SAL P.O. Box 7623 Beirut LEBANON info@hymax.biz
- · Information department: Product Safety Department
- Emergency telephone number: 1-800-535-5053 contract number (89244) departamento de seguridad de los productos

### 2 Hazard(s) identification

• Classification of the substance or mixture		
GHS02 Flame		
Flammable Liquids 2	H225	Highly flammable liquid and vapor.
GHS07		
Skin Irritation 2	H315	Causes skin irritation.
Specific Target Organ Toxicity - Single Exposure 3	H335-H336	6 May cause respiratory irritation. May cause drowsiness or dizziness.
<ul> <li>Label elements</li> <li>GHS label elements</li> <li>The product is classified and labeled according to t</li> <li>Hazard pictograms</li> </ul>	he Globally	Harmonized System (GHS).

## 108-65-6 2-methoxy-1-methylethyl acetate

763-69-9 ethyl 3-ethoxypropionate

### 4 First-aid measures

- · Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- After inhalation: In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact: Rinse opened eye for several minutes under running water.
- · After swallowing: If symptoms persist consult doctor.
- · Information for doctor:
- *Most important symptoms and effects, both acute and delayed* No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

### 5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • For safety reasons unsuitable extinguishing agents: Water with full jet

- · Special hazards arising from the substance or mixture No further relevant information available.
- · Advice for firefighters
- · Protective equipment: No special measures required.

### 6 Accidental release measures

	recautions, protective equipment and emergency procedures ctive equipment. Keep unprotected persons away.	
	ental precautions: Do not allow to enter sewers/ surface or ground	d water.
	nd material for containment and cleaning up:	
	n liquid-binding material (sand, diatomite, acid binders, universal bi ntaminated material as waste according to section 13.	nders, sawdust).
	equate ventilation.	
	to other sections	
	n 7 for information on safe handling.	
	n 8 for information on personal protection equipment.	
	n 13 for disposal information. Action Criteria for Chemicals	
· PAC-1:		
-	n-butyl acetate	5 ppm
1330-20-7		130 ppm
	2-methoxy-1-methylethyl acetate	50 ppm
	ethyl 3-ethoxypropionate	1.6 ppm
· PAC-2:		
123-86-4	n-butyl acetate	200 ppm
1330-20-7	xylene	920* ppm
108-65-6	2-methoxy-1-methylethyl acetate	1,000 ppm
763-69-9	ethyl 3-ethoxypropionate	18 ppm
PAC-3:		
123-86-4	n-butyl acetate	3000* ppm
1330-20-7	xylene	2500* ppm
108-65-6	2-methoxy-1-methylethyl acetate	5000* ppm
762 60 0	ethyl 3-ethoxypropionate	110 ppm

### 7 Handling and storage

#### · Handling:

- **Precautions for safe handling** Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.

- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed. Store in cool, dry conditions in well sealed receptacles.
- · Storage class: 3
- · Specific end use(s) No further relevant information available.

### 8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see section 7.
- · Control parameters
- **Components with limit values that require monitoring at the workplace:** The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

123-86-4 n-l	butyl acetate
PEL Long	g-term value: 710 mg/m³, 150 ppm
	rt-term value: 950 mg/m³, 200 ppm g-term value: 710 mg/m³, 150 ppm
	rt-term value: 150 ppm g-term value: 50 ppm
1330-20-7 x	rylene
PEL Long	g-term value: 435 mg/m³, 100 ppm
	rt-term value: 655 mg/m³, 150 ppm g-term value: 435 mg/m³, 100 ppm
TLV Long BEI,	g-term value: 20 ppm A4
108-65-6 2-1	methoxy-1-methylethyl acetate
WEEL Long	g-term value: 50 ppm
· Ingredients	with biological limit values:
1330-20-7 x	rylene

- · Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the skin. Avoid contact with the eyes and skin.
- **Breathing equipment:** In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.
- · Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

Tightly sealed goggles

### 9 Physical and chemical properties

### Trade name: S23 REDUCER NORMAL

· Other information

No further relevant information available.

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- **Conditions to avoid** No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

### 11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · LD/LC50 values that are relevant for classification:

Oral LD50 5,800 mg/kg (mouse)

- · Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- · on the eye: No irritating effect.
- · Sensitization: No sensitizing effects known.
- · Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Irritant

- · Carcinogenic categories
- · IARC (International Agency for Research on Cancer)
- 1330-20-7 xylene
- · NTP (National Toxicology Program)
- None of the ingredients is listed.
- · OSHA-Ca (Occupational Safety & Health Administration)

### 12 Ecological information

#### · Toxicity

- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- · Additional ecological information:

#### · General notes:

Water hazard class 2 (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground.

- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

### 13 Disposal considerations

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- · Recommendation: Disposal must be made according to official regulations.
